90%

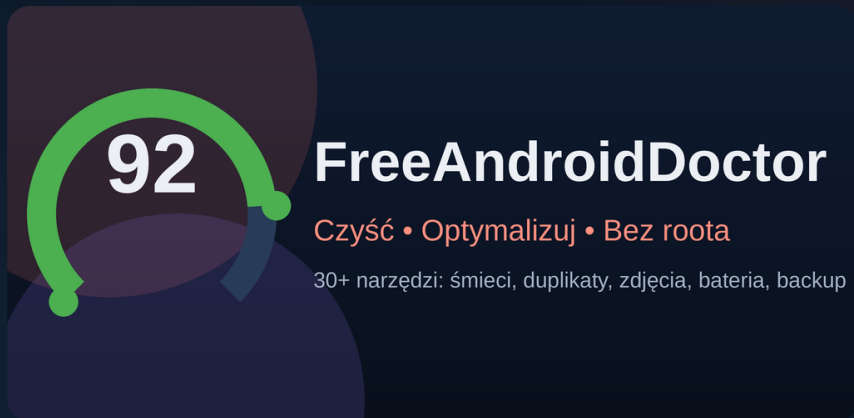

of free Android "cleaners" send your data to at least three ad-tech companies beyond Google itself.

Your cleaner is spying on you.

- ▶ 14 of 20 tested apps **sell your data**
- ▶ 9 read your **installed app list** for no good reason
- ▶ 6 request **contacts and calendar** for "better recommendations"
- ▶ All of them push **aggressive PRO upsells**

100% local. Zero servers.

FreeAndroidDoctor processes everything on your device. No account required. No file uploads. No tracking IDs.

Five products in a 4 MB app.

Cleaning

Cache, duplicates, leftovers from uninstalled apps (CorpseFinder), junk logs.

Privacy

Privacy Score 0–100, APK scanner with tracker database, 15+ browsers to clean.

Modes

Game / Travel / Focus / Privacy. One toggle configures half your phone.

Battery

Real capacity measurement, charge log, breakdown of greediest apps.

AI

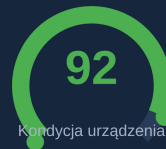

Cerebras / Groq / OpenRouter with your own API key. Personalized recommendations.

Everything at a glance.

- ▶ **Health Score** — single-number device assessment
- ▶ **Privacy Score** — network + app permissions
- ▶ **Active Mode chip** — current operational mode visible
- ▶ Storage / RAM / Battery at a glance
- ▶ Quick actions — cache clean in two taps

Deep Scan in 12 phases.

An animated flow instead of an empty progress bar. Each phase shows real bytes found — no inflated "GB reclaimed".

- ▶ App cache · APK leftovers · temp/log
- ▶ Trash · clipboard · large files
- ▶ Hidden caches (WhatsApp, Telegram...)
- ▶ CorpseFinder (uninstalled app data)
- ▶ Duplicates ≥ 10 MB · blurry photos · similar

Privacy Score — a real number, not marketing.

The APK scanner computes a risk score for every installed app from 5 signals:

- ▶ **Accessibility Service** usage (potential keylogger)
- ▶ **Device Admin** claim
- ▶ **Debug certificate** (unsigned app)
- ▶ **Outdated targetSdk** (bypasses new protections)
- ▶ **Suspicious installer** (unknown sideload source)

Plus a device-wide Privacy Score from VPN / Private DNS / Wi-Fi security / IPv6 signals.

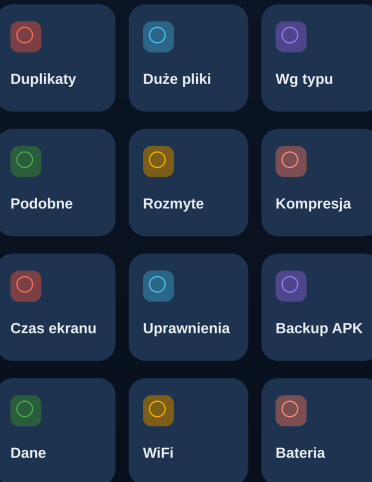

45+ tools, 8 categories.

- ▶ **Files & storage** — duplicate, large files, treemap
- ▶ **Apps** — screen time, rarely used, permission audit
- ▶ **System** — device info, monitor, tweaks
- ▶ **Photos** — similar, blurry, compress
- ▶ **Battery** — health, log, drain breakdown
- ▶ **Privacy** — APK scanner, profiles, browsers
- ▶ **Automation** — modes, auto-rules
- ▶ **Premium Pack** — vault, cloud backup, app lock

30+ narzędzi w jednym miejscu

Your API key. No middleman.

The assistant analyzes a local device-health snapshot (storage, RAM, batt, apps). Pick a provider, paste a key — the request goes directly from your phone to the API.

Cerebras

Fastest inference on the planet. Llama 3.3 70B in <200 ms. Generous free tier.

Groq

LPU inference for Llama / Mixtral.
Streams tokens faster than you can read.

OpenRouter

Gateway to 200+ models (GPT-4, Claude, Gemini, open-source). Pay-as-you-go.

One toggle. Half your phone configured.

5 built-in modes

Game

Dark theme, DnD, pause scheduled clean, free RAM.

Travel

Save battery on roaming, pause sync.

Focus

Block distracting apps + DnD priority.

Privacy

Auto-clear history, suggest Private DNS.

Auto-Rules (trigger → action)

- ▶ **Low storage < 10%** → notification + Open Cleaner
- ▶ **Charging full** → run cache clean
- ▶ **On boot** → activate Focus mode
- ▶ **Weekly** → deep scan on Sunday
- ▶ **Open Wi-Fi** → auto Privacy mode
- ▶ **App installed** → APK risk scan (PRO)

A 2026 stack, no compromises.

Your data never leaves the device.

✓ What we do

- ▶ Compute bytes **locally** (StorageStatsManager)
- ▶ Audit permissions **locally** (PackageManager)
- ▶ Encrypt secrets in the **Android Keystore**
- ▶ AdMob — only the standard Advertising ID (Free tier)

✗ What we don't do

- ▶ We don't require a user account
- ▶ We don't send your app list to a server
- ▶ We don't collect usage statistics
- ▶ We don't sell data to anyone
